ABOUT US

Adamo Parfum takes great pride in collaborating with the world's most exceptional craftsmen and artisans. Our collaboration with some of the world's best perfumers, renowned for their creations for prestigious brands worldwide, has played a pivotal role in crafting these extraordinary perfumes. Their expertise and artistic vision have contributed to the development of truly captivating and memorable scents.

Our commitment to excellence is evident in the successful launch of our first collection of five perfumes in 2023, forming the distinguished Roman Collection. This entire collection was created by Master Perfumer – Christian Provenzano. Numero IV & V the two oud-based fragrances, have gone on to critical acclaim and are our best sellers from this collection.

In 2024, Adamo Parfum expanded its offering with a new collection, named Costiera, featuring three fragrances: Juanillo, South of 5th by Hamid Merati-Kashani, and Clifton by Julien Rasquinet. The Costiera Collection is inspired by idyllic locations worldwide, including South of 5th (Miami, USA), Juanillo (Cap Cana, Dominican Republic) and Clifton (Cape Town, South Africa). In late spring 2025, we will release the latest offering to this collection called Uluwatu (Bali, Indonesia) by Ilias Ermenidis.

In a remarkably short period, Adamo Parfum has captivated the fragrance community with its commitment to originality, bold aesthetics and unparalleled quality. With the launch of the new Immaginario Collection, the esthetics and the boundaries of creativity will be pushed even further. The collection aims not only to elevate the brand's reputation but also to inspire a deeper appreciation for the fine art of perfumery.

ROMAN COLLECTION

Evoking the decadence and power of the Roman era, the Roman collection is a statement of boldness, indulgence and sensuality. Daring, regal and dominant – these are the characteristics of the wearer. On the nose, everything is in excess: potent notes of Mediterranean spices and fruits leave a lasting impression, just as the Romans have. The epitome of carpe diem, these perfumes are made for those who follow their instincts and demand attention.

The perfect cloak for these provocative perfumes, the striking bottles are enveloped in compelling geometric black and white motifs and recall the art-fuelled spirit of the Roman era. Within these mythical vessels lie sensuous fragrances imbued with luxury, intensity and intrigue. Brought to life with the most expensive and exclusive ingredients, from saffron to agarwood, amber, Damask rose, patchouli and incense, these scents are an audacious ode to the opulence of the Roman lifestyle in all its glory.
